CYCLO VAC

Patent Pending

“**Never again** will I need to **store the hose** in a closet and to carry it from one inlet to another!”

The Retraflex hose **retracts into the same piping network** used by your central vacuum, not taking any added space within the walls.

Cyclo Vac is proud to offer you complete central vacuum systems for a quick and simple clean, so that you can save time and enjoy life!

Retractable Hose System: Cleaning Simplified

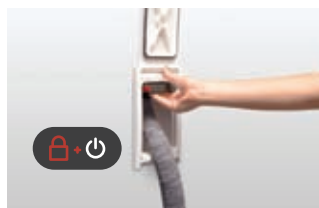

This unique system is a must for the optimal use of your central vacuum.

1

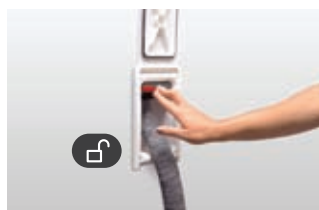

Pull out the length of hose you need at the moment and connect the attachments of your choice.

2

Pull on the black handle to start the system and to lock the hose at the desired length.

3

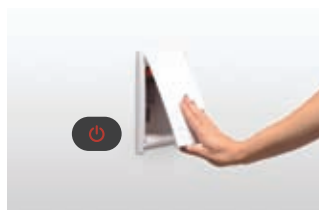

Push the handle to unlock the hose.

4

Disconnect the attachments and put your hand over the opening to allow the hose to retract.

5

Close the door to stop the system.
